Service Manual page 4-1

By all means as much tolerance as possible, such as either side
we are changing parts in the overall. We are only asking the you providing for
some "L" type bolts with "L" angles. I will supply the specs for the "L" bolts & "L"
etc. and the "L" angle which is a standard part in the C312000 drawings. *Don*

Let us know if that will do

Regards

John
